

Hydraulic Workover Unit - 420K

The reliable and flexible 420K HWO Unit has been designed for offshore dead well situations.

The jointed work string is handled by means of 3 hydraulic cylinders. The use of hydraulic cylinders allows perfect control over work string movements and makes it easy to use all types of downhole tools.

Advantages & Characteristics:

- Unique 'slip bowl interlock system'
- Small footprint
- Flexible
- Mobile
- Excellent cost / quality ratio
- Multi-purpose application
- Modular
- Rack back 240 stands (double) of 3½" 13.3# drill pipe

Operational Activities:

- Handling all types of completions
- Dead well operations
- Packer setting / milling
- Well clean outs
- Fishing operations
- Installation of liners
- Remedial operations
- Installation of velocity strings
- P&A Operations
- Casing Milling
- Conductor reclaim
- Side track drilling

TECHNICAL DATA

420K HWO UNIT

Max. Pull Capacity **420,000lbs**

Max. Push Capacity **N/A**

Rotary Torque **22,000 ft/lbs**

Stroke **46ft**

Through Bore **17-3/4" - 26"**

Gin Pole **5.5 tonne**
